To be eligible to apply for British nationality, you will need to be able to meet the residence requirements. Generally this means that you cannot have been absent from the UK for more than 450 days in the last 5 years and cannot have been absent for more than 90 days in the last 12 months.

### Can my children also apply for British nationality?

This will depend on where your child was born. If the child was born in the UK and you had technically obtained Permanent Residence by the time of the birth, then the child is entitled to British nationality. Different rules apply to children born before you are settled in the UK and to children born outside the UK.

If you have children over the age of 18, they will need to make their own application as an adult.
